

Perfect boots for women with 100% **Comfort.**

# LADIES.

Research has proven that women require a style of boot that is specifically designed for their feet.

Quite simply, women's feet are anatomically different to men's feet. That's why we've created the stylish contours of the Ladies range. Now there's less chance of foot health problems after long hours on your feet. As tough and durable as all Steel Blue boots, our Ladies range has been designed to cradle, cushion and soothe your feet all day long. And they look great, with stylish lilac-colour accents.

**Boot Featured: Hobart Ladies**
